Enrolment Procedure

Boroondara Preschool is a part of the Boroondara Kindergarten Enrolments Scheme (BKCES). For enrolments please collect a booklet from our Preschool, a Boroondara Maternal and Child Health Centre, the Boroondara Council Offices, or download from www.boroondara.vic.gov.au

Or contact the Preschool on: 03 9857 6159.
Children are encouraged to:
Be self motivated and make their own choices, acting on them within fair and reasonable boundaries. They work together or alone, problem solve, care for others, express and recognize their feelings and practice environmental awareness.

Our program incorporates:
The different developmental rates of children which are always considered and catered for. We encourage gardening, caring for animals, sand and water play with a wide range of sensory experiences. Visitors and incursions supplement the program and many wonderful “hands on” experiences are made available to the children.

Staff:
Our qualified, experienced teachers work collaboratively to provide innovative programs designed to assist children in developing socially, emotionally, intellectually, physically and creatively. Staff work alongside the children, guiding and encouraging them through their learning experiences. Staff also encourage children to work together in problem solving, making decisions and in being caring, considerate and accepting of others.

Our management:
The Preschool is managed by a dedicated parent committee, who through management and fund raising are continually updating and improving upon already excellent facilities. Parent involvement is welcomed at the Preschool and the Committee and staff work hard to ensure that Boroondara Preschool is a safe and happy environment for children to learn, and grow.

Children are born with a passion to explore the environment.
Both the 3 and 4 year old classes explore the same environment but develop according to their skill level and developmental needs. We provide a play based program with a range of experiences, both indoor and outdoor, utilizing unique and versatile play spaces. We have exceptional indoor and outdoor activities, including a wide range of construction materials, comprehensive children’s and parent’s library and a wide variety of climbing frames. All of which lends itself to a flexible and challenging environment.
